While studying at the University of Humanities and Economics in Lodz you gain the skills necessary to a successful career and develop a creative attitude, which is confirmed by the Certificate of the Creative Competences.

Therefore, we direct our offer to creative, innovative and open-minded people.

TECHNOLOGY OF CREATIVITY

Technology of Creativity is a unique model of education at The University of Humanities and Economics in Lodz.

Only at AHE, during specially prepared modules, you:

- expand your imagination, train creating new ideas, concepts and solutions,
- develop your social and interpersonal competences, participate in creativity workshops,
- plan and realise projects - by creative project methods,
- face market challenges and solve problems of real companies and institutions,
- implement your ideas, create products and solutions,
- prepare to organize your own projects and start on the market.

THE UNIVERSITY AND THE CITY

Hi-tech multimodal transport station Lodz Fabryczna conveniently connects the city with Warsaw and the rest of the country. Rapidly developing infrastructure, international airport and the location on the route, connecting East and West makes Lodz a key town in the Central Europe. Thus, the city is not only an attractive place to study but also guarantees a variety of lucrative full time positions for professionals in many fields and part time jobs for students.

AHE is located in the heart of the city, in the 19th century factory sites. This place gives access to a wide range of cultural offers and ensures convenient communication throughout the city. In the restored walls, with an unique industrial atmosphere, educational, cultural and business events are organised. Our students and lecturers have well-equipped lecture rooms, a library, computer and multimedia laboratories, a radio studio, television studios, scientific workshops and exhibition galleries at their disposal. There is also a canteen serving breakfast and lunch.
